Summary

Computer Science undergraduate and MERN Stack developer with hands-on experience building scalable full-stack web applications. Skilled in frontend, backend, real-time systems, and modern developer tools. Actively seeking internship opportunities to contribute to impactful products while growing as a developer.

Education

- **B.Tech in Computer Science Engineering** 2023 – 2027
Shri Shivaji Institute of Engineering and Management, Parbhani

Skills

- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript
- **Backend & Databases:** Node.js, Express.js, REST APIs, MongoDB, Pinecone, Redux, Socket.IO
- **Languages:** C++, Python, JavaScript, TypeScript
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, Render, VS Code, Cursor, Figma
- **Soft Skills:** Problem Solving, Self-Learner, Consistency, Communication, Time Management

Projects

Habit Tracker — habittracker-ten.vercel.app

- Built a full-stack habit tracking platform with streaks, journals, leaderboard, and community posts.
- Designed REST APIs using Node.js and Express for habits, journals, posts, and user management.
- Implemented OAuth and JWT-based authentication with protected routes and role-based access control.
- Integrated an AI habit assistant to provide personalized habit suggestions and guidance.
- Deployed frontend on Vercel and backend on Render with environment-based configurations.

Konvox — chatgpt-clone.vercel.app

- Developed a real-time chat application with a modern and responsive user interface.
- Implemented short- and long-term memory for improved contextual responses.
- Focused on clean UI/UX, smooth interactions, and performance optimization.
- Designed the application structure to support future scalability.

Mood Melody — mood-melody-bice.vercel.app

- Created a mood-based music recommendation web application.
- Built backend APIs to process user mood inputs and return dynamic recommendations.
- Designed interactive frontend components with smooth transitions.
- Ensured responsive design across desktop and mobile devices.

Beyond Snack — beyond-snack-xkg4.vercel.app

- Designed and developed a visually rich product website for a snack brand.
- Implemented responsive layouts optimized for all screen sizes.
- Added interactive animations to enhance user engagement.
- Focused on branding consistency and clean UI presentation.

Achievements

- Completed **LeetCode Badges** — LeetCode Profile
- Earned **GFG 160 Days Certificate** — View Certificate
- Participated in **Sheriyans UI Hackathon**
