SKILLS

Frontend

- HTML, CSS, JavaScript   React.js,
- Next.js Tailwind, SCSS

Backend

- Express.js, Node.js MongoDB,
- Pinecone Socket.IO

Tools

- Git , Github , Vs Code , REST Apis
- Postman , Figma , Canva

Additional Skills

- Responsive Web Design, API Integration, UI/UX Animations, Real-Time Communication, AI Integration

ACHIVEMENTS

- Solved 150+ DSA problems on LeetCode ↗
- GFG-160 - 160 Days Of problem Solving ↗

PROFILE

Third-year Computer Science undergrad and Full-Stack Developer skilled in the MERN stack. Experienced in building interactive, AI-integrated, and animated web applications with scalable architecture. Passionate about crafting immersive digital experiences and writing clean, efficient code.

PROJECTS

Knovox ↗

A Comprehensive Full-Stack AI Chat Application (GPT Clone)
- A full-stack real-time AI chat app for human-like conversations.
- Built with React, Node.js, and Socket.IO for instant communication.
- Added multi-voice text-to-speech and scalable backend for smooth UX.
- **Tech Stack:** React, Node.js, Express, Socket.IO, MongoDB

SnapCap - your buddy for captions ↗

Caption Ideas Inspired by the Image

- Users upload images; AI generates creative caption ideas in real time.
- Built with React, Node.js, and AI integration, featuring interactive UI and seamless backend.
- **Tech Stack**: React, Node.js, Express, AI API, MongoDB

MoodMelody ↗

Suggest Songs Based on Your Mood
- Real-time playback and playlist features with React & Node.js.
- Focused on frontend animations and user-centric design.
- **Tech Stack**: React, Node.js, MongoDB, Express

EDUCATION

Bachelor of Technology in Computer Science   2023- 2027

SSIEMS , Parbhani | DBatu University
