

# SYEDA BISMA

Computer Science undergraduate and MERN Stack developer

☎ 9356131746 ✉ syedabisma173@gmail.com 🔗 LinkedIn 🌐 Website 🐙 GitHub 📍 Parbhani, India

## EDUCATIONS

**Shri Shivaji Institute of Engineering and Management** | Parbhani

2023 - Present

B.Tech in Computer Science Engineering

CGPA : 7.2

- **B.Tech in Computer Science Engineering**, Shri Shivaji Institute of Engineering and Management, 2023 - 2027

## PROJECTS

**uiuxmock** | 🐙 Github 🌐 Website

Jan 2026 - Mar 2026

Solo Full Stack Developer

- Developed a full-stack **web application** that generates multi-screen **UI/UX mockups** from natural language prompts leveraging **AI**.
- Engineered an interactive canvas-based screen management system with theme support, live preview, and code generation features.
- Implemented authentication, project management, and database integration using **Next.js**, **PostgreSQL**, **Drizzle ORM**, and **Clerk**.
- Integrated **OpenRouter AI APIs** for automated screen configuration and UI generation.

**Technologies / Tools Used** : Next.js, PostgreSQL, Drizzle ORM

**Habit Tracker** | 🌐 Website 🐙 Github

Oct 2025 - Dec 2025

Solo Full Stack Developer

- **Developed a full-stack habit tracking platform** featuring streaks, journals, a leaderboard, and community posts.
- **Engineered REST APIs** using **Node.js** and **Express** for managing habits, journals, posts, and user accounts.
- **Implemented OAuth and JWT-based authentication** with secure routes and role-based access control.
- **Integrated an AI habit assistant** offering personalized habit recommendations and guidance.
- **Deployed the frontend on Vercel** and the backend on Render, utilizing environment-based configurations.

**Technologies / Tools Used** : Node.js, Express, MongoDB, React, Tailwind CSS

**Konvox** | 🌐 Website 🐙 Github

Sep 2025 - Oct 2025

Solo Full Stack Developer

- **Developed a real-time chat application** featuring a modern, responsive user interface.
- **Implemented short- and long-term memory** capabilities for enhanced contextual responses.
- Emphasized clean UI/UX, smooth interactions, and performance optimization.
- Architected the application structure to enable future scalability.

**Technologies / Tools Used** : React, Express, MongoDB, Node.js, Tailwind CSS

**Beyond Snack** | 🌐 Website 🐙 Github

Jul 2025 - Jul 2025

Solo Full Stack Developer

- **Designed and developed a visually engaging product website** for a snack brand.
- Implemented responsive layouts optimized for all devices.
- Integrated interactive animations to boost user engagement.
- Ensured branding consistency and a clean UI presentation.
- Hackathon Project | solo developer completed in 3 days.

**Technologies / Tools Used** : React, Tailwind CSS

## SKILLS

|                                |                                                                                         |
|--------------------------------|-----------------------------------------------------------------------------------------|
| <b>Databases :</b>             | MongoDB, PostgreSQL, Redis                                                              |
| <b>Frameworks Libraries :</b>  | React.js, Next.js, Node.js, Tailwind CSS, Express                                       |
| <b>Languages :</b>             | English, Hindi                                                                          |
| <b>Programming Languages :</b> | C++, Python, JavaScript, TypeScript, Java                                               |
| <b>Soft Skills :</b>           | Problem Solving, Consistency, Communication, Collaboration                              |
| <b>Tools Platforms :</b>       | MongoDB, Redux, Socket.IO, Git, GitHub, Postman, Vercel, Render, VS Code, Cursor, Figma |

## AWARDS & ACHIEVEMENTS

- **Completed LeetCode Badges**: LeetCode Profile
- **Earned GFG 160 Days Certificate**: View Certificate
- **Participated** in the Sheriyans UI Hackathon
